

Kick-start 2010 with IATS & DoJiggy

For the months of January, February and March, IATS and DoJiggy have teamed-up to offer new DoJiggy clients processing services without the IATS standard monthly fee, for the first six months from signup.

IATS service saves you time and money

- Directly integrated into your DoJiggy software
- Comprehensive, web-based reporting
- Replaces the need for a merchant account or payment gateway
- Your one-stop-shop for all your donation processing needs for all major credit cards
- Setup is quick and easy
- Dedicated customer service support

How it works

With IATS there aren't any headaches with managing payment gateways. We offer one simple fee structure, with no surprises. Our service saves you money upfront on the cost of processing and on staff time to process donations so that you effectively reduce your donation processing costs!

With the IATS system integrated into your DoJiggy software, you only have to input the donation information once and the actual processing takes mere seconds, saving you time and money. Our services reduce processing redundancy, helping to cut down on errors that occur through manual processing and the chargebacks that result.

Funds are deposited directly into your bank account and IATS provides extensive web-based reports that help improve the way you manage your reconciliation. Our reports are generated in real-time and are easy-to-use.

IATS fully supports and endorses the Payment Card Industry (PCI) Data Security Standard, created by major credit card companies to set high technical standards to safeguard customer transaction information. In fact, IATS is certified by TrustWave Ambiron at Level 1—the highest possible rating.

Call DoJiggy at **888.436.1999** to find out how you can benefit from this limited-time offer.
