

## THE EASY & AFFORDABLE WAY to Manage Donors & Online Donations!

Dojiggy Donations offers a secure online donation page and year-round donor management. Donors can make one-time donations or set-up a user profile for recurring giving by month or other specified term. Recurring donors can easily access and change their profiles with a username and password. The Donations service also includes gift management options for gifts made 'on behalf of' or 'in memory of' another person.

As with all of Dojiggy's products, your organization's webpage is easy to create and fully customizable. An administrator will customize:

- the website header and donor appeal
- donation categories or suggested amounts
- donation types accepted and
- a donor thank you message.

Detailed donor information is securely stored in the administration area which functions as a donor database and donations record. Donation receipts are emailed to the donor with a copy sent to the system administrator and several reporting functions are available.

Sign up with our merchant services to receive your Donations subscription free for one year or use your choice of our supported payment processors.
