We offer Interchange Plus pricing to better serve our clients with a fair pricing system. Interchange is charged by MasterCard, Visa and the other card companies on all credit card transactions. Interchange Plus pricing works by adding a constant, flat percentage on top of interchange rates. There are no tiers or qualified cards with Interchange Plus pricing. For this reason, it is widely considered to be a benefit to merchants, as overall fees are generally lower than with tiered pricing models.

Organizations which receive a free Donations subscription must activate their merchant account within 60 days of the date of enrollment. (To activate, the merchant must process one single transaction of \$50 or four consecutive transactions of \$10 or more.) If the merchant does not meet these qualifications they will be charged a \$199 account fee.

Fees shown on this rate sheet are the primary fees that will apply. Additional fees may be accessed by Visa and MasterCard and passed through to merchants. These fees will be listed on your application.
